hello Chesca

My 14 month old Son is wearing the toddler leggings and body suits 24/7. They have changed his life. he can enjoy playing eating sleeping everything now. his skin use to drive him crazy and he would sratch until it bled. Now his skin is still dry and when I take the leggings off he will sratch straight away but when they are on they are so good.

thank you derma silk you have made my babies life so much more fun and comfortable for him

A happy mummy
