Subject: Fwd: It's been 4 weeks since you ordered DermaSilk

Hi Chesca,

Please find attached the completed POEM SCORE spread sheet. Firstly let me say the leggings are simply fantastic. I have struggled with severe Dermatitis since my late teens, which is about 15 years.

I've gone through any number of topical steroids and an abundance of creams, behavioural psychology for scratching, allergy tests, exclusion diets and whilst getting relief for small periods never really addressing the itch / scratch cycle.

Since I slipped on my leggings I was very surprised how cool they kept me feeling, and I was also surprised how much they relieve the entire area. I've always struggled with scratching my legs, and night time has always been difficult. I also love logging my progress, so having your spread sheet arrive was terrific, as I was just about to write my own when yours arrived. To be honest I was a little sceptical at first, but the results speak for themselves !!

I feel so much better, my reliance on the topical steroids and creams has decreased significantly, and they're very comfortable and discreet under my work slacks, jeans, and lounge pants for bed. The severity of the affected areas has gone down tremendously, some of my most problem areas are either gone or have diminished significantly.

I would have no problem in sharing my experience with others or as a referral to your product or website, so don't hesitate to contact me.

Thanks for a terrific product, you guys should promote this loads, as I think GPs whilst aware of therapeutic clothing applications, they need to hear more success stories 😊

Cheers

S B
